## Band: Kerfoot & Dau

An electronic rock duo, steeped in dark-dance with world beats, based in Las Vegas. Dana Dau & Ang Kerfoot perform all-original sets including improvisation infusions live using beats, synth, acoustic guitar, & an array of guitar pedals on the vocals. Heady lyrics & deep danceable grooves paired with throwback blues-soul-funk vocals, these 2 are reminiscent of The Doors, Lcd Soundsystem, Jack White, Yeah Yeah Yeahs, The Presets & The Dead Weather

*This was a pleasant surprise for me. I've been a fan of trip hop for years – Massive Attack, Portishead, etc. This album takes the best of all of those elements and adds a really dark edge. The lyrics are powerful and often scathing – with a really focused wit. My favorite track is "Spooky Mouth." The lyric "I'll take the dark street solo over a well-known crowd of well Lit peers." Is awesome.*
